Redistribution Committee for Victoria

Dear Sirs

We would like to object to the redistribution of the boundaries of our Murray Electorate. These proposed boundaries as well as cutting out a safe Coalition seat National or Liberal to get rid of a wonderful member Dr Pharamon Pitt who safeguards all his constituents welfare. Being forced to challenge we will have less representation in our local water entitlements being lumped with children and no common industry base to work together. Having experienced several redistributions in various areas it usually means loss of voice for country people.

Yours in Jesus Service

Daryl Bell
