**Subject:** redistribution

I would like to express my opinion regarding the proposed redistribution in the electorate of Murray in Victoria.

The propose changes which would see Murray electorate's Shire of Campaspe enveloped by the Electorate of Mallee. I see this as being another way of taking away choices from rural electorates and giving more opportunities to city voters. We understand that our cities are expanding but we feel that the rural vote helps to keep a balance in the parliament of rural and city opinions which I believe is good for our country.

I would also like to show my support for sitting member Dr Sharman Stone in her campaign to retain Murray as a viable seat in future parliaments.

Yours sincerely
