We Greg and Margaret Toll object to the Victorian Electoral redistribution 2010.

We wish to lodge our objection to the proposed redistribution of electoral boundaries in Victoria. In particular we object to the abolishment of the Electorate of Murray.

If we have to be drafted to another Electorate our preference would be to be affiliated with the communities of Bendigo, Elmore, Rochester and Echuca. Our area has been associated with the Bendigo region since the early 1800s, through gold mining, agriculture, health services and transport industries.

Our communities are linked through major road and rail corridors. These facilities link and enhance the communication and prosperity of all in the confines of this Electorate.

Yours faithfully,

Greg Toll.
