Subject Renaming of Electorate of Denison

Sir/Madam,

I wish to object to the retention of the electorate name of Denison. The argument for change strikes me as a very uncomplicated one; Denison was a particularly anti-democratic person, in marked contrast to the Inglis Clark. What an irony that one of our electorates is named for a person who was committed to limiting democracy.

As pointed out by others, several electorate names have been changed in the past and this particular change is a very worthy one, with Denison remembered for attempting to restrict democracy, while Clark was dedicated to building a fairer system. I hope that this matter will be reconsidered.
