Subject 2008 Tasmania Redistribution

Dear Marie Neilson,
OBJECTIONS

1. I object to the Proposals in that the Report should include a short summary of my proposal of 14.4.2008, that each of the five electorates be aligned with three Legislative Council boundaries, ie Braddon = Murchison, Montgomery, Mersey; Lyons = Great Western Tiers, Rosevears, Derwent; Bass = Launceston, Windermere, Apsley; Franklin = Rumney, Pembroke, Elwick; Denison = Hobart, Nelson, Huon, along with the logical reasons I submitted.

I trust you will rectify this omission in your final Report. Electors are entitled to know what was submitted, not have you censor or withhold it. The logic of my proposal will be relevant in the future, people need time and opportunity to consider it.

2. LYONS - Is improved, made more cohesive, if West Coast goes into Braddon, but continue the same logic and transfer L.C. Apsley to Bass, and excise Legana-Hagley segment from Bass.

3. FRANKLIN - Is yet more broken-backed by excising Kingborough, My L.C. based proposals for Denison and Franklin solve this problem, which will get worse in future as Clarence and Kingston grow compared with Hobart. What is the community of interest between Gagebrook and Port Davey?

Regards,
Paul Fenton.
