

PUBLIC SUGGESTION

The Federal Redistribution 2009
NSW

Public Suggestion Number 124

by

Alan Jenkins

35 Pages

AEC submission. A Jenkins. p1

I am emailing in response to the AEC media release: "AEC invites suggestions into NSW electoral redistribution," 2 April 2009.

My name is Alan Jenkins, resident in the federal division of Hume in NSW. I hope that I will be able to find the time to put forward a more considered submission than the few thoughts that I wish to share with the Commission here. The views expressed here are entirely my own and are put forward without any tint of political bias, ambition or affiliation with any political party or movement - a private citizen wishing to express his opinion on the topic of fair and sensible representation of country NSW constituents west of the Great Dividing Range in the Federal Parliament.

Having read, with thanks, the supporting information provided by the AEC and studied the divisional maps going back to 1901, the key observations are:

- 1) Just nine of the current 49 divisions in NSW are above the required quota.
- 2) Of the divisions west of the Great Dividing Range, the only division above quota is Macquarie.
- 3) The layout of the divisions of Farrer, Calare and Parkes are badly distorted by the ongoing presence of Riverina, which is a boutique division in terms of area and distance from boundary to boundary when compared to the other three.

The previous redistribution in NSW created some oddities and peculiarities which a few cynics west of the Great Dividing Range said could "only have been the work of city-based public servants and committees devoid of any clue about life in country NSW." While I don't necessarily agree with that cynicism or find it particularly helpful, it was certainly odd that Broken Hill, Tibooburra and Cameron's Corner were placed into the seat of Farrer, that Gwydir was abolished and then Parkes moved seemingly inside the old Gwydir boundaries, that Calare was extended north-westwards to the Queensland border instead of to the South Australian border, and Riverina was reduced to a comparative thimble of a division when compared to size of divisions like Farrer, Calare and Parkes.

People who live there have told me that there is little community of interest, if any, between Broken Hill and Albury (less so between Tibooburra, Milparinka, Cameron's Corner and Albury). Towns like Tumut and Tumbarumba do have a community of interest with Albury by virtue of being located west of the natural boundary of Kosciusko National Park, yet the previous redistribution placed them into the division of Eden Monaro, which lies predominately to the east of the Park.

It is unfortunate that the enrolment numbers dictate that in Calare, towns like Narromine, Nyngan, Cobar, Wilcannia, Brewarrina, Bourke, Enngonia and Wanaaring, which have more community of interest with Dubbo than they do with Orange, are in a seat which swings to the west and south of Dubbo and which takes in Orange and places as far south as Grenfell.

At 42,201sq. km Riverina is approximately 18 percent the size of Calare, one-fifth the size of Farrer, and two-fifths the size of Parkes, yet the Members for Farrer, Calare and Parkes have extraordinary distances to cover if they are to adequately serve their constituents when compared to the situation in Riverina. The division of Macquarie is not quite three-tenths the size of Riverina, so the disparity in area (and area for each member to cover) between it and Farrer, Calare and Parkes is even more pronounced.

In Hume, villages like Milvale and Bribaree, in the western end of the division, have little or no community of interest with towns like Tahmoor and Thirlmere in the east. Those western villages and towns like Cootamundra and Young have more community of interest with Wagga Wagga than they do with towns like Bowral and Mittagong.

What I'm attempting to describe in the previous five paragraphs is a certain amount of geographical dysfunction in the divisions of country NSW west of the Great Dividing Range, in

terms of community of interest and the pressures placed upon the individual Members in being able to serve the needs of their constituents caused by that geographical dysfunction, which occurred after the previous redistribution.

While I understand and accept that there are certain limits placed by the Constitution upon what can be achieved in setting division boundaries - particularly not being able to cross state borders - may I suggest that the question of western NSW divisions be fully revised.

My reading of the enrolment numbers and comments from a number of people about communities and geographies of interest in western NSW would suggest that natural boundaries such as the Great Dividing Range and Kosciusko National Park should be given more weight in determining division boundaries. There is a general community of interest east of the Great Dividing Range and Kosciusko National Park to the coast as there is a general community of interest west of the Range and the Park.

The tablelands and slopes, and the western slopes and plains are another geographical community of interest, though granted population decline in western NSW makes drawing divisions to conform to these communities of interest difficult. Nonetheless the notion of three large seats in western NSW reaching the state borders, nominally 'south west', 'central west' and 'north west' conforms best to a sense of community of interest, with seats based on the slopes and tablelands (Hume, Macquarie, Hunter and New England) straddling the divide between the western NSW divisions and the coastal NSW divisions.

The division boundaries that came close to recognising this are seen in the boundaries maps of 2001 and 2004. It would seem a good place to start when considering division boundaries, particularly under the new requirement that a division in NSW has to be abolished and one created in Queensland.

Under the scenario outlined in the last three paragraphs, the seat that is definitely the one to abolish in NSW is Riverina.

Riverina's boutique presence on the map badly distorts the layout of the divisions of Farrer, Calare and Parkes, and to a lesser extent Eden Monaro and Hume. It is a nonsense that the SLAs of Broken Hill and Unincorporated Far West are required to be served by the Member for Farrer instead of the Member for Calare, as it is that the SLAs of Tumut and Tumbarumba are required to be served by the Member for Eden Monaro instead of the Member for Farrer.

A reworking of the Actual and Projected enrolment numbers supplied by the AEC would suggest that communities of interest would be best served by

- 1) abolishing Riverina, and reallocating the SLAs from it to Calare, Hume and Farrer,
- 2) shifting the western boundary of Farrer/Calare from the Queensland border to the South Australian border – to the boundary of the 'Wentworth' and 'Unincorporated NSW' SLAs,
- 3) moving the boundary of Calare/Parkes west – to the boundary of 'Bourke' and 'Unincorporated NSW' SLAs,
- 4) moving the western boundary of Eden Monaro back to the eastern edge of Kosciusko National Park and shifting the Tumut and Tumbarumba SLAs back into Farrer,
- 5) moving Hume to the west of the Great Dividing Range – removing from it the SLAs of Wolundilly, Wingecarribee, Goulburn Mulwaree and Palerang, and incorporating into it a number of the Eastern SLAs from the former Riverina, plus one or two SLAs from Calare.

While I certainly cannot rework the enrolment numbers with the same expertise and detail as the Commission, an indicative reworking of the numbers along the lines as suggested above gives the following results:

FARRER: SLAs of Albury (C), Balranald (A), Berrigan (A), Conargo (A), Corowa Shire (A), Deniliquin (A), Greater Hume Shire (A) - Pts A and B, Hay (A), Jerilderie (A), Lockhart (A), Murray (A), Urana (A), Wakool (A), Wentworth (A), Tumbarumba (A), Tumut Shire (A), Murrumbidgee (A), Narrandera (A), Gundagai (A). **Actual Enrolment:** 97,802 **Projected Enrolment:** 100,980

CALARE: SLAs of Broken Hill (C), Unincorp. Far West, Central Darling (A), Cobar (A), Carrathool (A), Lachlan (A), Forbes (A), Parkes (A), Griffith (C), Leeton (A), Cabonne (A), Orange (C). **Actual Enrolment:** 98,477 **Projected Enrolment:** 99,687

PARKES: SLAs of Bourke (A), Brewarrina (A), Warren (A), Coonamble (A), Dubbo (C) - Pts A and B, Gilgandra (A), Gunnedah (A), Gwydir (A), Lithgow (C) – CCD No's 1142203 and 1142505, Mid-Western Regional (A) - Pts A and B, Moree Plains (A), Narrabri (A), Upper Hunter Shire (A) – CCD No. 1130209, Walgett (A), Warrumbungle Shire (A), Wellington (A), Bogan (A). **Actual Enrolment:** 96,364 **Projected Enrolment:** 97,229

HUME: SLAs of Boorowa (A), Harden (A), Upper Lachlan (A), Yass Valley (A), Young (A), Cootamundra (A), Junee (A), Wagga Wagga (C) - Pts A and B, Temora (A), Coolamon (A), Weddin (A), Cowra (A), Bland (A). **Actual Enrolment:** 100,360 **Projected Enrolment:** 103,862.

Reworking the enrolment numbers for the divisions west of the Great Dividing Range along the lines suggested above creates improved communities of interest when compared to the previous redistribution. It establishes three western seats along 'southern', 'central' and 'northern' areas (being Farrer to the south-west, Calare to the central-west and Parkes to the north-west), shifts SLAs west of Kosciusko National Park (Tumut Shire, Tumbarumba) into the western seat of Farrer, frees up the SLAs of Palerang, Goulburn Mulwaree, Wingecarribee, and Wolundilly to be incorporated into divisions east of the Great Dividing Range where their community of interest lies and moves the division of Hume back towards its historical location west of the Great Dividing Range – incorporating areas, towns and cities that used to be part of the division of Hume in days gone by.

Abolishing Riverina and reworking its former SLAs into Farrer, Calare and Hume, as well as returning Tumut Shire and Tumbarumba SLAs to Farrer, moving Hume (and Macquarie) to the west, making a westwards shift to the western boundary of Parkes, shifting the western boundary of Eden Monaro to the eastern edge of Kosciusko National Park and keeping its focus to the coast and tablelands east of the Great Dividing Range will, I'm sure, make the reworking of the numbers for the rest of the divisions in NSW a more logical and sequential process, as well as one that will ensure the objective of 'communities of interest' being met more fully.

Away from the reworking of enrolment numbers, boundaries and which division in NSW should be abolished, my final observations and suggestions are to do with the names of some of the western seats.

The division of Parkes (established 1984) no longer includes the town or shire of Parkes inside its boundaries, even though all three take their name from the man. The previous distribution wiped out an original federation division of Gwydir by placing Parkes almost within Gwydir's original boundaries, in contravention of the stated principle on the AEC website that "Every effort should be made to retain the names of original federation divisions."

Following on from the previous redistribution, Calare was moved in a north-westwards direction and assumed most of the area bounded by the former seat of Parkes – including the Shire of Parkes and town of Parkes. As well as stating that "Every effort should be made to retain the names of original federation divisions," the AEC website notes that division names reflect the names of prominent citizens or geographical locations (and sometimes all of them).

Should the Commission see fit to rework the western seats along the lines suggested by this submission, may I also suggest there is a compelling case to change the name of the division of 'Calare' to "Parkes" and to reinstate the name of "Gwydir" to the north-western seat that is currently named 'Parkes'. The case for reinstating the name of Gwydir is strong, given that not only was it an original federation division, but it was also an original seat in the NSW colonial parliament when the Legislative Assembly was established in 1856, an SLA of Gwydir exists within its boundaries and there is also the river of the same name. There are few divisions/seats in the Federal Parliament that can trace the lineage of its name back to 1856 like the division/seat name of Gwydir can.

Of course these thoughts concerning the names of divisions are a quibbling matter when compared to the more weighty issue of having to select a division for abolition and reworking the enrolment numbers to find new boundaries.

However if the Commission sees sufficient merit in the redistribution suggestions made earlier in this submission that it decides to act on them in whole or part, then I hope it will give favourable consideration to retaining the name of "Farrer" for the south-western seat, changing the name of the central-western seat from 'Calare' to "Parkes" and changing the name of the north-western seat from 'Parkes' to "Gwydir."

Yours sincerely,
Alan Jenkins
