Dear Sir

I object very strongly with the proposed new seat of Wright that the Federal government has drawn up. We here in the Lockyer Valley do not wish to be attached to the Coast area we have enough trouble with governments to get services and funding for roads which are a disgrace especially the warrego N.W. in the main signs are erected rough Rd which stay for months before bit & mix repairs are carried out with government histogwe would be worst off as all or most funds would go as they do now to the ~~and~~ coast and nothing inland
