To:

HERB 17 AUG 2009

The Electoral Commissioner, Australia
and Queensland, Electoral Division of Herbert.

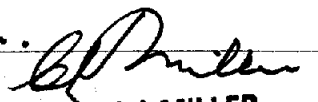

5 Aug. 2009.

I am disgusted that your Commission should contemplate
hiving-off the Townsville suburbs of Wulguru and Annandale
(including Lavarack barracks) from Herbert and attaching them
to the Dawson electorate, based at Mackay. Such a
proposal beggars the credibility of common sense.

It is possible, in the future, as the population of this
area increases, that Townsville and Herbert need to be
split; but until that increase warrants two representatives
representing this area - not one plus an absentee whose
interest must be elsewhere - the whole of Townsville is
Townsville, not Mackay.

The thought that this proposal is to squeeze another
electorate into the over-represented South East Corner, which
already lacks value generated in V.O. to further north in
the South, is repugnant to me and other residents.

Please find some other solution.
