Dear Sir,

I am sick of being transferred from the Gold Coast to Beenleigh and beyond – you just did it in the State redistribution and now we are to get it in the Federal redistribution, only it is even worse as we now go as far north as Loganlea – about 40 km away.

This is unacceptable as there is no representation for Gold Coast residents in this new electorate as there is not in the State electorate of Albert.

Please do not take our vote from us – I want a member from our area and I will not have a “local” member in the State or Federal systems if this stupidity goes ahead. If I wanted a member from Beenleigh then I would move there – as if!!!

Please reconsider and bring some rationality to your decisions,

John Mason.
