Additional information: As a resident of the Central Goldfields Shire I object to redistribution our Shire to the seat of Mallee. Centred on Mildura the communities within the seat of Mallee have few social or regional connection to our Shire. We are very closely linked to both Ballarat and Bendigo, commercially, physically, socially and via public transport. This redistribution disfranchises our community.

As a resident of the Central Goldfields Shire I object to redistribution our Shire to the seat of Mallee.

Centred on Mildura our Shire has few social or regional connections to the other communities in the electorate of Mallee. We are very closely linked on the other hand to both Ballarat and Bendigo We are commercially, physically and socially linked and our transport systems all link to these major centres . This redistribution, if it goes ahead, will disenfranchise our community and will relegate us to being a distant appendage on a large electorate to which we have little affinity.
