Melbourne Vic 3001

Dear Secretariat

As an interested constituent in the present McMillan electorate I was interested to note the boundary change for the proposed Monash electorate on the eastern end around the Garfield, Bunyip area.

It would appear the proposed boundary is a dis-connect as it cuts off Garfield North and those others north of the Princes Freeway. These communities are inter-active and actually form one community. The proposed change puts them in different electorates. They also share the same Postcode.

A suggestion would be to either place the boundary along the Tynong North road and join it further along to the Monash boundary;

Or use the Postcode boundaries as Garfield North etc share the same Postcode;

Or move the boundary to the Bunyip River which actually serves as a border between the Baw Baw Shire and Cardinia Shire.

I trust you will consider my suggestions.

Sincerely

Jillian Shelton
