> I would like to object to the proposed division of point cook for the following reasons:

>

> Splitting Point Cook in two goes against the social inclusion that the community groups have worked so hard to achieve. Point Cook community is a proud community that prides itself on working together to improve our suburb, splitting the suburb in two and dividing it goes against what this suburb is about. Essentially Point Cook will become two irrelevant halves of a suburb on the outskirts of two electorates rather than remain as a united force. Having to divide our community to lobby two MP's does not make sense and will have a negative social impact on our community.
