Dear Sir / Madam,

I am lodging a strong objection to the name change from Corangamite to Cox.

1. Corangamite has a long history with strong connections to politicians of integrity and to the indigenous population.

2. The name if changed should be named after a region i.e. Cape Otway, South Western etc like the other regions. (Outer regions)

3. May Cox is not well known enough - she could be recognised by naming the council swimming pools after her or something more fitting to her contributions.

Yours Sincerely
