For-Official-Use-Only

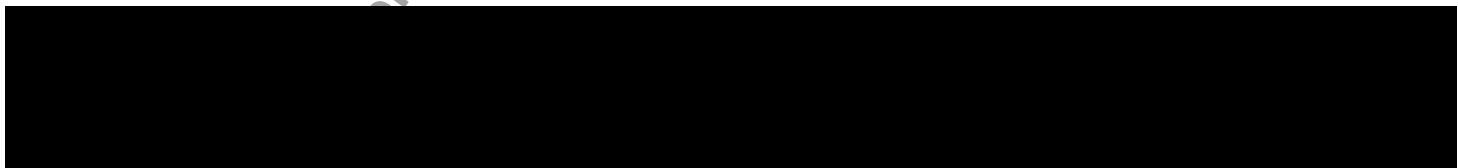

Good afternoon,

With respect to Andrew's points, we would like to make the following comments:

- Fenner's honours – I have adjusted the text such that it now includes the list of letters after Fenner's names, which picks up these two awards, but have not listed them specifically in awards. The list of awards are predominantly the science awards as a way if indicating that he was big in the world of science.

As noted, it would be greatly appreciated if you could provide any comments by cob Friday.

Regards,

Nicole
