Hi

I would like the following (amended) version to be included:

Why is yet another electorate to be named after a male (proposed naming after Charles Bean)?

I believe Cullen, named after Ngingali Cullen would be more appropriate and inclusive. As a member of the Stolen Generation she overcame discrimination as both a woman and Indigenous Australian. Despite this she achieved an education, served the community as a health care worker and nurse, and was an outstanding spokesperson for Indigenous Australians. She exemplifies a forward looking Australian seeking social justice who made a difference to the lives of many. She is a role model for young Indigenous people. Charles Bean has already received many accolades. Please reconsider.
