Dear Official,

Regarding the opportunity to have a say in naming a federal electorate I would like to suggest Margaret Tucker. She is an inspirational Indigenous woman who fought for equal rights – this platform (unfortunately) transcends time and particularities, however given the still poor state comparatively of our Indigenous people has deep resonance right now.

Please note, it is time at least that this new electorate name be the name of a woman. It is inexcusable that in 2020 our gender is not properly and equally represented in our culture, such as evident in the Order of Australia awards, and ...the naming of electorates.

Thank you for considering my suggestion.

Best wishes,

Dr Marina Lewis
