Dear Sir,

I write to protest at your recommendation that the seat of Gwydder be abolished and replaced by a MEGA seat of Parkes -
You must be able to do better than this?

47% of the land MASS of new South Wales, one member cannot do this!!!

We in Wentworth, MURRAY DARLING electorate have suffered in a seat with 50% PLUS of the land mass of NSW IN it, our representation in Parliament and serving our MP has been bloody awful and Peter Black has tried

No one member can do what you propose. Do you want everyone living in Sydney now and the outback going? Why would you live in the Bush if you have buckleys of over serving your member of Parliament?

In the proposed seat, some people will have to travel up to 5 hours to see their MP; have any of the Committee put petrol in their cars lately?

Think of the costs you are inflicting on these voters just to see their member.

Please try again, this is unworkable!!

Regards

Bill Wheeldon.
