Dear Sirs/Madams

I would appreciate if further thought and investigation be made before changing the seat of Swidard's boundary and the amalgamation into the seat of Portos.

The representation of the people who live work and employ in this port region would be significantly diminished. It has been hard enough on John Anderson to cover the existing seat to be our voice for the 'Heldersons' forgotten so often by our city leaders.

It really is getting to the point where you may as well have your State of Newcastle Sydney & Wollongong and leave the rest of us to our Region State in isolation.

The hurt and dislike for city dwellers who push their thoughts and value on the Region will only grow.

Please get out amongst this region and see for yourself before the decision is made.

Yours Faithfully

Joanne Owen
