What are you doing to our electorate without thinking about the situation that we are in here. How bloody arrogant to have Bathurst in the same electorate as katoomba. What are you thinking of? Ok perhaps you just look at numbers or is it the clock ticking away before lunch? Are cultural differences taken into consideration I think I could really do a better job than you lot here on my home computer with a program designed to count the numbers while taking into consideration the cultural aspects and land area to cover for one person to represent. Think it over..
