132. Boundary Road,  
DUBBO NSW 2830  
25th July 2006.

The Electoral Commissioner  
Federal Government  
P.O Box 6172  
KINGSTON ACT 2604

001684

Dear Sir / Madam

Re: Changes to the Federal Seat of Perth

I am writing to raise opposition to the above.

- 1) IT'S SIZE. He had enough for an number of Perth to reach everyone (but to do a good job at it) but make it 4 of NSW and its impossible. - maybe you should visit and go on tour with him.
- 2) Many official people, mayors, councillors and business people have raised their opposition both in the media and local papers. These people represent many thousands of people and do understand the situation.
- 3) 100 year drought. Now more thousands people need a voice, historical too and representative.

-2-

- 4) Give us back the rest of Queensland.
- 5) Why are so many retirees going north?  
They plan & simply cannot afford to live in  
country now. more facilities and taxes are killing them.
- 6) Who said a state is governed by its population  
- maybe in all spheres the Electoral Commission  
could make representatives to the Federal Government  
to take into consideration geographic size or  
maybe better still the income generated to  
the government from the state being changed.  
One can truly understand why Western Australia  
wants to break away from the other states.  
Its income through mining had must be enormous.
- 7) It is not the fault of the people in  
the rest of Perth that both Federal & State  
Governments in the past and now have not  
put all the money they generate from our  
rest back into it. eg nuclear levy,  
the thing of so few university positions mainly  
in the past of doctors, dentists, physics, etc,  
that Tasmania is not of the same standard state  
wide as in Sydney, hardly any money is allocated  
to the Newell Highway this financial year.  
but we have some of the heaviest truck

-3-

travel. being doubles and even three weight.  
content is to be increased. There are no  
passing lanes and retained nesting stops with  
tailed facultus etc its not funny. We also see  
some of the most horrible road accidents.

Now we wont even begin to mention the State's  
unpossibilities in education, health, local government.  
high taxes, lack of decentralization and true  
infrastructure even though our local leaders  
and business people are screaming out for help.  
Police, law and order, better magistrates and law makers.  
All the above would keep people in our seats.

Please, things are getting worse and to make  
the best of Parks my biggest is truly, in  
my eyes discriminating against us the people at  
the cost of the eastern seaboard, which in  
its self is caught in the reverse situation to us.  
Common sense has plain and simple gone out the window.

Yours faithfully  
(Mrs) Corrie D Gibbs
