Australian Electoral Commission

Dear Sir,

I am writing to protest & object to the new proposed electoral boundaries & the abolishment of the seat of Gwydir.

I strongly object on the grounds of the area & distances involved within the proposed boundaries will be too great for one member to represent properly.

In such a large area the needs of one part of the electorate are different to the other at any one time. The travel will be enormous to cover all districts.

Flying would be the only way to cover such distances - but how many people & towns would never see, let alone meet the member & discuss their problems.

The vast economic production of these areas would be affected by lack of representation.

I appeal to your sense of fair play & review the boundaries & keep the seat of Gwydir so we may have good representation. Thank you

Yours faithfully,  
Len Reardon
