To The Australian Electoral Commission
Redistribution Committee

We the undersigned strongly object to the proposed merger of Gywydie with the seat of Parkes.

This will increase the size of Parkes to about 47% of N.S.W. Hardly fair for one member to represent nearly half the state when it takes 48 members to represent the remainder of N.S.W.

The size of the proposed seat of Parkes would make it impossible for one member to properly represent the people. Also one less country seat is one less member to represent country people.

Hope you will reconsider and not go ahead with the merger.

Yours Faithfully

BRUCE DOWLING
