Dear Sir,

I am writing to protest about your proposal to abolish the Guyra Electorate. This decision has obviously been made by a city person sitting behind a desk who has never deemed the massive distance one person will have to represent. Even the chosen name - Parkes - is unbelievable. We have a town called Parkes not even in the new electorate.

Please think again and leave country electorates alone. We have little enough representation in Parliament as it is.

Yours sincerely  
Barbara Langley
