Dear Sir,

The members of the Myamley C.W.A. strongly protest against the proposed abolishment of Gwydir Electorate.

It is totally inconceivable to expect that over 48% of N.S.W. can be successfully represented by one politician

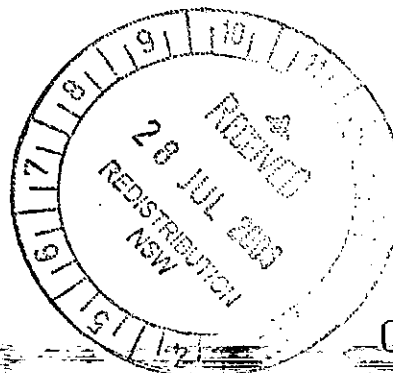

The attention at present given to the constituency in this area of N.S.W. is not nearly enough and to now have that representation extended to almost half of the state beyond imagination.

We voters out here are human beings too and deserve to be heard just as much as those living in the cities and along the sea board.

We request that further thought be given to this proposal as life is already very difficult for the rural community who are very important to the economy of Australia.

Yours sincerely

Honorary secretary.
