Redistribution of N. A. Wales Committee  
Haymarket. 2000

Sirs,

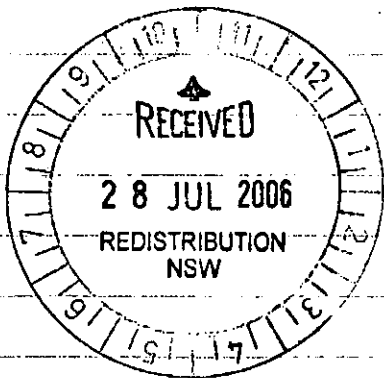

I wish to protest against the proposed abolition of the Federal seat of Guydir.

For one person to adequately represent such a huge area I feel would be impossible, both physically & mentally.

The residents in these far reaching & generally disadvantage areas need & are entitled to the same services & considerations as those people living & working in closely populated towns & cities; we all pay our Taxes.

Families have worked long & hard, some for several generations, in the Western areas, all are entitled to face to face Federal representation.

Sincerely,  
Jill Burling
