Redistribution Committee for NSW  
PO Box 20014  
WORLD SQUARE  
NSW 2002

001878

Dear Sir,

I object to the electoral boundary changes proposed for the **Division of Calare** in the NSW Federal Electoral Redistribution 2006.

I believe that the Committee has contravened many of the basic priority principles for electoral redistributions and delivered a flawed, Sydney-centric proposal resulting in the abolition of a country seat – Gwydir – with significant, negative impacts on the remaining six country NSW electorates.

My objections relate to three main points:

1. **The abolition of the seat of Gwydir.**
2. **The transfer of the eastern section of Calare, comprising of the Lithgow, Oberon and majority of Bathurst Local Government Areas (LGAs) to the proposed Blue Mountains seat of Macquarie.**
3. **The increased geographic size of the proposed Calare and other country NSW electorates.**

#### **Abolition of Gwydir**

I object to the abolition of Gwydir, which reduces the number of country electorates west of the Great Dividing Range from seven to six. This measure undermines the federal parliamentary representation of country NSW.

Increasing the size of the country electorates makes it impossible for any elected member of parliament to deliver quality service and properly represent the interests of their constituents.

#### **Eastern Calare to proposed seat of Macquarie**

The transfer of the eastern section of the existing Calare electorate – comprising of Lithgow, Oberon and the majority of Bathurst Regional LGAs – to the proposed Blue Mountains seat of Macquarie completely ignores the **community of interest** principle of electoral redistributions.

As Central Tablelands communities, Bathurst, Lithgow and Oberon share a very strong and historical community of interest across the board.

Bathurst Regional, Lithgow and Oberon City Councils are members of CENTROC – the Central NSW Regional Organisation of Councils – which focuses on local government issues and cooperation relevant to the Central Tablelands and Slope and Plains regions of NSW.

There is also a very strong community of interest between Bathurst and Orange – which have been separated under this proposal.

Bathurst is the base campus for Charles Sturt University which recently absorbed the former Sydney University campus of Orange, with both campuses working through the post-amalgamation process with the help of a common federal member. Further, the proposed transfer of this eastern section of Calare to Macquarie splits the Bathurst Regional LGA such that the northern and southern parts will be in separate federal electorates, in blatant contravention of the community of interest principle.

**Proposed new seat of Calare**

There is very little **community of interest** between the Weddin Shire in the south-west (centred on Grenfell) and the Mid-Western Regional Shire (centred on Mudgee) in the north-east, yet both are proposed to be included in the new seat of Calare.

The number of large and medium population centres has increased from four (Lithgow, Bathurst, Orange and Cowra) in the existing Calare electorate, to seven (Orange, Mudgee, Wellington, Parkes, Forbes, Cowra and Grenfell) in the proposed seat.

It would be extremely difficult for the local member to provide the appropriate level of service to constituents in all of these centres on a regular basis.

With similar increases in size for all country seats, this scenario that will face country MPs and result in a much lesser service for their constituents compared to Sydney city and suburban electorates which would have more readily absorbed the abolition of a Sydney metropolitan seat without such adverse consequences.

**Conclusion**

I strongly urge the committee to withdraw its decision to abolish the country NSW seat of Gwydir and maintain the existing electoral boundaries of the seat of Calare in recognition of the fact its projected voter population is comfortably within the range required for this redistribution.

Yours sincerely,

**Sandra Cheney**
