23rd July 2006

The Australian Electoral Commission.

This is to make you aware of our criticism of abolishing the seat of Guyra, and making the seat of Parkes such a mega seat that many of us in the North West will be very lucky indeed if we have fair representation in the Parliament. We believe that community of interest will be forgotten as there cannot be that community of interest in such a vast seat.

Also, how can one member possibly give fair representation when it takes approximately 14 hours to cross by car this proposed mega seat. Very unfair on the member.

Others will no doubt tell you of other ways of re-distribution such as abolishing city seats where members can walk around their electorate. It is grossly unfair to country people especially when we have endured 5 years of drought, country people often feel that Governments ignore them, and the sure that with this mega seat we will be ignored.

We urge you to re-consider the boundaries so that we in the North West can have fair representation in the Parliament.

Regards

Joyce and Mike Partridge
