I am writing to object to the abolition of the electorate of Gwydir.

If Gwydir electorate disappears from the map to become Parkes electorate, this making it impossible for a member to keep in touch with what is happening in an electorate so large, being from the Queensland border to South Australian border & to the Northern Rivers, covering 44% of the state of NSW, irrespective of what Party may be in power.

I wonder if anyone has stopped to think what wealth is generated from this Gwydir electorate, even in times of drought for several years. These agricultural & other businesses contribute to the wealth of this state & not to have easy access to their local member is not a progressive situation, in 2006, not 1901 when this electorate was formed.

Yours sincerely,  
Hilary Budden
