To Australian Electoral Commission,

I feel it is unfair that we, in the country, are to be severely disadvantaged again. To be included in an electorate that covers almost 50% of N.S.W.

Condemns us to be almost abandoned as far as the political system operates.

To expect one person to represent us in an area of this size is beyond belief.

If the electorate commissioners are at all concerned ~~at~~ about country people, they will come over the great divide to see the results of their office orientated decision.

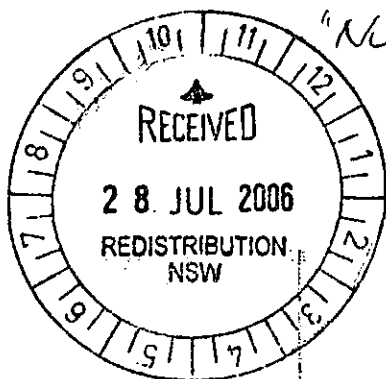

This area provides a large part of the N.S.W. income and receives very little consideration in any ~~Govt.~~ Govt. or bureaucratic matters.

Please reconsider your decision relating to the Gwydir electorate as, we out here, are Australians too.

Two very concerned voters,

Lee & Kevin Carstake
