Subject objection to electoral boundaries

Classification  Unclassified

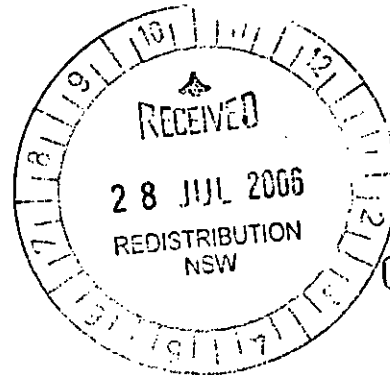

I wish to voice my objection to the changes to the electoral bounderies.

Why is Erskine Park and St Clair in the Prospect Electorate with a lot of suburbs that we have nothing in common with. Why can't these two suburbs be returned to Lindsay as was once the case. Our suburbs identify with those in the Lindsay Electorate much more readily than with suburbs in the Prospect Electorate. Also local papers give us so much more information on what is happening in the Lindsay Electotate than in the Prospect Electorate.

To be frank I don't even know the candidate for Prospect and am not even interested in what is happening in the Prospect electorate as I don't visit suburbs there and don't think matters relating to that electorate really concern me.

This is just an opinion form a resident of St Clair to the burearcrats at the electoral commission who don't live here.

Cheers  
Jane Stephens
