Subject Objection to Parkes/Gwydir Redistribution proposal

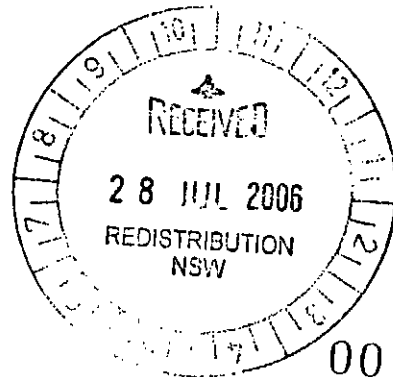

Classification  Unclassified

Dear Sir

On behalf of the CTC and Community Center of Coonabarabran, I wish to object to the proposed redistribution which would see this electorate impossible to represent and ensure we cannot be properly represented. The small regional and rural areas have already felt the bite of the drought and various government decisions such as Brigalow. People are hurting - we are not all rich landowners or the stereotypical over fat, rich squatter. We are small businesses, small farmers and unfortunately large numbers of those Dependant upon self funded superannuation or Government benefits. The large indigenous population has tremendous issues of their own and no one member can represent such a broad spectrum of the societies represented.

Your s sincerely

Donna Burton  
CTC Manager
