Subject Gwyder
Classification Unclassified

Dear Sirs

I must object most fiercely at the elimination of Gwyder from the NSW electorate list. I spent many years of my life as a beef cattle advisor for the NSW government, covering an area that was essentially equal to Gwyder and New England, and I know how impossible, physically and effectively, it is to cover that area, let alone an electorate the size of a Gwyder and Parkes combined. I understand this is bigger than Germany in size!!! How can its residents be reasonably & effectively represented. Will you supply the member with a helicopter for fulltime use? I doubt it!!!

I also understand that there are seats around western Sydney that are as marginal in numbers as these country electorates. Surely it is both sensible and practical to amalgamate in that area???

Your decision is a further erosion of the regional folk's representation in Parliament and has no reasonable argument to support it. Please rethink this indefensible decision and allow the people of rural and regional Australia a FAIR and REASONABLE ability to be EFFECTIVELY represented.

Your sincerely

Lloyd Beeby
