The Chairman

Redistribution Committee of NSW  
Australian Electoral Commission

Dear Sir

As a Constituent of the Sydney Electorate, I am shocked to learn of what you propose.

To abolish Sydney & make an isolated electorate of Parkes makes one wonder, is it true.

How you expect their representative member to do the job expected of him, is impossible. As for his constituents, they would never have access to him, or perhaps just get a letter, have I got a representative somewhere.

Great the whole system of representation & electoral boundaries, requires a complete overhaul, so that these large electorates can give representation to their constituents.

The time has come to say NO & object to the present system

Yours Sincerely

T. D. Bell
