The Redistribution Committee

P. O. Box 20014

World Square

NSW. ~~220022~~. 2002

I say a definite NO to letting Gyudis go.

I direct my anger and disbelief at your committee and any other persons who may have whispered into your ears and helped you make the decision that "Gyudis must go".

How could a group of intelligent people not visualise the problems that will arise should this proposal be adopted. I say you should think it over again and come up with a decision that is workable.

Today Gyudis is lost into the vast expanse of this ever growing Calare electorate, where the one, holding the seat, is run ragged trying to cover thousands of kms to speak with the people he is representing. In sure "Calare" electorate would be released, if it is decided to leave us where we are.

Who knows, this may be a new tactic to do away with all electorates so we can be ruled by one

governing body. We all know what that means
They say for us to jump and they hope we will
say 'How high'.

It has already started. local governments
have been made to amalgamate. (They are quarrelling
among themselves already.) So a little amalgamation
here, a little redistribution there, some new Work
force laws, in favour of the rich that take
workers back to ancient times. Maybe we will
have to start building chimneys again so
we can have our young children employed
to go up the chimneys to clean out the soot.

Australia is not as free as we think it is
Who is it that is taking away the great
Australian way. We have been known for
our "Fair go" justice. If you care for the
country you live in then work for its
good not its demise.

Informing you.

Margaret Doble.
