NSW 2002

Dear Sirs,

It is of great concern to me to hear of the intended redistribution boundaries proposed under the newly released draft.

The merger of the seat of Gympie with Pomeries as proposed would create an unworkable sized area that one member of Parliament would be unable to serve. The size of such a seat, which would comprise of nearly 50% of N.S.W., would incorporate too many different land types and uses to be put into 1 bucket.

It would appear to me that seats of smaller areas in Sydney and coastal regions could be merged with much less disruption to all concerned.

I believe that this proposal must be overturned without further consideration.  
Yours faithfully

C. P. & J. WHITECHURCH
