To Whom it May Concern.

This is an invitation for the members of the AEC that came up with the ridiculous and blatantly discriminatory decision to eliminate the seat of Gympie. My car seats five people including the driver, so there is room for three to four members of your committee to accompany me on a tour of the new proposed electorate of Parkes. I am prepared to drive you and pay for the fuel and my own accommodation, while we tour the whole area, and have you explain to me and the electorate the rationale behind your decision to lump about 2/5 of the State into one large electorate.

I will be available from the 20.07.06 and I've allowed 4 to 5 days for the trip, I can meet you at a place of your convenience, I presume somewhere with a regional airport would be an advantage, looking forward to your response.

Also I've never been one for conspiracy theories and agendas, but just out of interest I would like to know the names, background and residential areas of the members of the commission that came up with this decision, the details don't have to be so specific, just a general overview, it may help with the understanding

Yours Sincerely

Daniel Moor
