Redistribution Committee NSW  
World Square NSW.

To Whom It May Concern,

Do the groups within the Redistribution Committee NSW ever leave their desks to observe life in the west? Possibly it is time they did visit Western NSW.

When we vote for a Federal M.P. we expect him to be available at times to assist & advise on development plans, possible grants & have a knowledge of roads & rail & of the towns & villages within our area - we are, after all, a productive area that helps keep Australia alive.

This being considered, how could the Committee ever expect any one person to give information & advice on an area one could not possibly travel & visit, or hold meetings, even

once in twelve months?

Perhaps the Committee should try to cover the area themselves, before placing such a heavy burden on any man or woman. Maybe they would realise also, the more could send a productive area backwards.

Sincerely

Reg Estlin

(Gwyder)
