Australian Electoral Commission,

Dear Sir,

I wish to object to the proposal to abolish the seat of Gwyder.

The resulting electorate would be such a large area, impossible for one member to service.

The present Gwyder and Parkes contain large and increasing export industries of coal, gold, copper, meat exports, products of agriculture and tourism. For an area in the western part of N.S.W. to remain viable and improve infrastructure and encourage development. we need a member who is not obliged to spend so much of his/her time travelling that he/she is not able to be effective as this great area demands and to which it is entitled..

Yours faithfully

James Atkinson
