RE: Amalgamation of Gwydir Federal Electorate with that of Parkes.

Dear Sirs/Mesdames

We wish to add our voices to the protest at the above amalgamation. The sheer size of the proposed electorate would make it next to impossible for the elected member to service in an adequate fashion, unless the Australian Government would supply a helicopter on demand for his or her use.

Such a mechanistic approach to electoral re-distributions, based on numbers alone, creates a situation rightly seen as ridiculous by those most affected. It certainly lessens the reputation of the Commission, and that of Australian Government Public Service personnel generally, when such an impractical situation is created by a body which has very little direct connection with the consequences of their actions.

Yours faithfully

W.K. Cameron
