Dear Committee,

As a former voter in the electorate of Gwydir, I think the committee has made huge error by abolishing this electorate and incorporating it into the seat of Parkes. making it an electoral seat half the size of NSW. You will be creating an electorate 5 times the area of Tasmania, how many members do they have how many seats how many senators. (lots) People in rural areas because of the size their areas need more representation not less.

Yours sincerely

David Mitchell
