Dear Commissioners

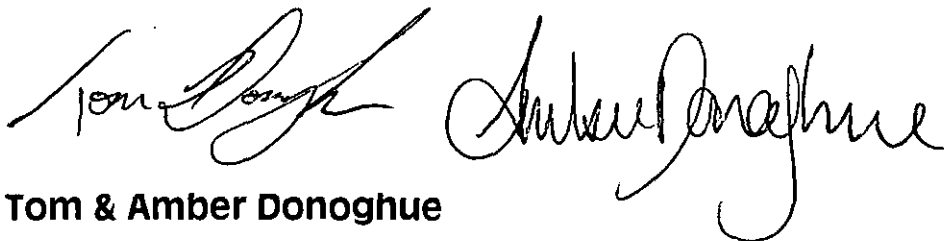

As graziers currently living in the Gwydir electorate, we would like to object to the draft redistribution by the Australian Electoral Commission that will see the seat of Gwydir abolished.

We understand that due to population changes, NSW must lose a seat to Queensland, however we feel that there is no need at all to create this mega-seat.

We have benefited enormously from having a local member who understands our needs and concerns, and we feel that this will no longer be the case should the proposed redistribution go ahead.

Farmers face enough battles as it is – please do not take away our democratic right to fair political representation.

Sincerely

Tom & Amber Donoghue
