The Redistribution Committee for NSW  
Dear Sir,

I wish to object to the huge extension of Parkes electorate. I ask you to consider (1) the huge size makes it impossible for a member to represent this electorate

(2) the poor public transport in the area excludes many from travelling to see the member

(3) the cost of electors to travel to see the member

(4) The member is only human so how can he attend parliament attend to his ministerial duties and then travel around such a huge area, to do his duty to his electors.

(5) the amount of money that would I believe be a contributing factor to loss of voters, but when better times come numbers will increase and you will have to redistribute the electorate of

Gwydir again as you did in Paterson. so why not leave it as it is with Parkes & Gwydir

Yours Faithfully  
Kerby Latham
