Dear Sir,

In relation to the proposed changes to electoral boundaries of the Gwydir Electorate; for a meaningful and progressive decision to be accredited to your committee: we strongly urge that you, not only investigate the production value from this area, but actually take time to visit and be aware of the proposed area's sheer immensity and the effect that your proposal will have on it's inhabitants. Most of these people generate far more than the average for their country.

We can only hope common sense will prevail!

Yours faithfully,

Norman & Penelope Whitaker
