Redistribution Committee for NSW

Dear Sirs

I am writing this letter to protest about your decision to create the new Electorate of Parkes which I understand takes in 157% of New South Wales

I am amazed to think that people in your position would lack the foresight and common sense to realize that this is so unfair to country people, it would be far better to encourage people to get out of the cities which are now over crowded, lack of transport, water, and many other things

Taking a seat out of Parliament which is National Party held, gives one the impression this could be politically motivated.

Hoping you will reconsider your decision to a more sensible way of distributing the members in each Electorate

Yours faithfully  
H. N. Idd.
