To Redistribution  
Dear Sirs

As with the majority of electors "In the Bush," i.e. West of the Great Divide I am outraged at the Proposed Redistribution of Boundaries, especially the axing of Lyndis, and the unmanageable size of the proposed Parkes electorate.

Please at least consider the vastly different lifestyle of the Bush, As yet, no real thought of what electors really require, not lump everyone with the same conditions coastal electors except, has even been considered. That way our elected Representatives could <sup>not</sup> understand our needs.

At least try to form smaller electorates compatible to climatic, rural and industrial requirements and easier access for electors to personally contact their standing member.

Hoping to receive a favourable result from our representations as at present and past government handling of the Bush has most electors angry and disillusioned.

Yours sincerely  
(Mrs) Marion H. Mann

P.S. Please retain Lyndis.
