World Square 2002.

Dear Sir

I object most strongly to the abolition of Gwyder & the area being incorporated into a seat that will cover 47% of N.S.W. An area that is almost twice as big as Victoria & five & a half times the size of Tasmania. An area that is bigger than quite a few countries in the world. Germany & Japan to name two!!

It is farcical to assume that one member can adequately represent such a huge area. The Redistribution Committee should get out of the office & actually travel around the area, allow at least 12 hours just to drive across - the same amount of time it takes to drive from Sydney to Brisbane.

Yours in disgust
J. Hinchey
