Dear Sirs

I would like to advise of my disappointment at the plan to abolish the federal seat of Gwydir, I add that it is not my electorate, but is very big now and a rich agricultural area and should have its own member, people in the country are hundreds of K.M. away as it is from their member without making it even worse.

It seems so unbalanced that in the city the electorates are so small, members can visit their schools or hospitals in one day out here that takes weeks, if numbers have to be reduced please consider taking a seat from the city.

Thank you

Harold Fritsch
