Australian Electoral Commission  
Attention: Redistribution Secretariat  
P O Box 20014  
WORLD SQUARE 2002

We are writing to voice our objection to the abolition of the seat of Gwydir.

As constituents of the the Gwydir electorate we reside in the very north of this electorate and would be unable to approach our member personally on any occasion.

We request a total redraft of this area as we believe that this is totally unfair on country voters. It is impossible for us to make a trip to Parkes just to speak to our local member. We feel that this is denying country people any rights. This is disadvantaging whole communities and request that the commission have a rethink as to this distribution.

Yours faithfully
