To the A.B.C.

I wish to register a strong protest against the proposed abolition of Sydney electorate.

The proposed new electorate of Parkes would be completely unworkable. The sheer size of the electorate would mean that some voters would never be able to meet their member to express their concerns.

Why should country people be further penalised? It makes much more sense to abolish a Sydney electorate, where it would be easier for a member to meet his constituents.

I strongly support keeping the existing boundaries between coastal and inland divisions, & the retention of electorates with people of similar concerns.

Yours truly

Winifred Fleet.
