Whom it May Concern,
For trying out land I wish some folk
would think of others who live on the west side
of the Great Dividing Range

I write In Objection to the proposed draft
to abolish the Rural Seat of Guydi.

I think it would be a human
impossibility of one Member of Parliament to
provide fair & suitable representation of such
a huge area covering 47% of NSW. If the seat
of Guydi was drafted into the seat of Parkes.

Then again what family life would
the member have in between being out to
functions & ~~not~~ sitting in Canberra.

I shudder to think of the travelling the
area & if it rained, what then - some roads
are impassable after ten spots of rain - all roads
are not even finished west of the Great Dividing Range.

I doubt whether we in the Lachlan seat
will be ~~let~~ ^{let} off when Ian Armstrong retires & we
are shifted elsewhere. We will miss Ian's strong
representation for so many years.

Hoping the objections you receive will
make folk see reason & leave Parkes & Guydi
where they are at present.

Sincere Objections from Iris Clark.
